

Marudetch Yenwattana

About Me

A motivated Computer Science student with strong problem-solving skills and a passion for software development. Experienced in web applications, data analysis, and teamwork within academic and project settings.

Work Experience

TechNova Solutions | Jun 2023 – Present

Junior Software Developer

- Developed web applications using React.js, Node.js, and Tailwind CSS
- Collaborated with backend team to design and integrate RESTful APIs
- Fixed bugs and implemented new features in a database management system

DataWorks Lab (University Project) | Aug 2022 – May 2023

Research Assistant

- Built machine learning models (Python, Scikit-learn) for data prediction
- Cleaned and analyzed student dataset of ~10,000 records
- Prepared research reports and presented findings to faculty advisors

Soft Skills

Problem Solving & Analytical Thinking

Teamwork & Agile Collaboration

Time and Project Management

Adaptability to New Tools & Technologies
